

KNORS

WORKING TOWARDS PROVIDING SOLUTIONS TO
THE PHARMACEUTICAL INDUSTRY

Rajesh Kaushik,
Founder

The Indian pharmaceutical industry is the superscript-largest by volume and the superscript largest by value in the world. The expansion in this industry has elevated the Indian pharmacy to a new level in the global market, paving the way for the creation of numerous opportunities in the international market. As the industry began to make its presence known in the international market, the governing bodies of this sector strengthened to ensure the pharma industry's standards. In line with this trend, KNORS Pharma Solutions stands alone in the pharmaceutical market with its impeccable contribution and involvement in this industry for the past six years.

KNORS Pharma Solutions is a group of qualified and experienced pharma professionals dedicated to providing high-end pharmaceutical solutions. This company provides a third-party evaluation of pharmaceutical manu-

facturers through its professionally designed tool for compliance with comprehensive CAPA and gradually prepares for inspection by regulatory agencies such as the USFDA, MHRA, MFDS, and EDQM. This private entity aids in the development of a new project by providing technology development, technology optimization, and technology transfer through validation. KNORS Pharma Solutions is known for its result-oriented service and specific approach to the root of requirement, this makes KNORS Pharma Solutions unique from the other players in the market.

The pharmaceutical market has undergone a significant transformation since the post-Covid era, and traditional methods of producing and disseminating generic medicines are no longer relevant. The current situation necessitates a specific niche medication with preferable actions. More specifically, the company's Founder, Dr. Rajesh Kaushik states, "The current technology and COVID have had a huge impact on our industry, and we feel like we are restarting our work with new advancement and approach. The ongoing revolution has not only impacted the industry's functionality, but also its governing body; we believe that if we strengthen the administrative hierarchy from the top layer, all the disruptions can be cleared in a very short period. The audience expectation and market demand from the pharma sector have undergone a drastic transformation from the pandemic and meeting the new demands with customer satisfaction is a new challenge for us. In this regard KNORS work-
